DRIFTER SPEED

FRAUSCHER 1017GT | 2019 | 9,99 M

The Frauscher 1017 GT is a refined luxury day cruiser distinguished by sharp, elegant lines and outstanding performance. Its deep-V hull delivers excellent stability and confident handling even at high speeds, while twin Mercury 350 hp (260 kW) gasoline engines provide rapid acceleration and a top speed approaching 50 knots. With only 155 engine hours, this vessel combines power with reliability and efficiency.

Finished in dark grey (Hull No. 0083), both hull and deck are complemented by premium stainless-steel fittings and meticulous craftsmanship typical of Frauscher.

The cockpit layout prioritizes comfort, offering generous seating, a large aft sunbed, vegan leather upholstery, and teak detailing on the foredeck, cockpit floor, and bathing platform. Additional features include LED illumination for the cockpit and bathing platform, a Bimini top, stern flagstaff, stainless steel bathing ladder with teak rungs, waterski hook, and a full set of accessories including fenders, mooring ropes, anchor, fire extinguisher, and boathook.

DRIFTER SPEED

FRAUSCHER 1017GT | 2019 | 9,99 M

Below deck, a compact yet well-appointed cabin provides a comfortable double berth, two refrigerators, and a bathroom equipped with an electric toilet, sink, and stern shower, making the boat suitable for short stays onboard. The technical equipment includes a complete electrical system with batteries, horn, bilge pumps, LED navigation lights, shore power connection with battery charger and cable, an electric mooring windlass with remote control, bow thruster, and a 9-inch chartplotter with integrated engine data.

With a draught of 1.10 meters and a displacement of 1,045 kg, the yacht is supported by a 520-liter fuel tank, a 59-liter fresh water tank, and a 50-liter black water tank. Combining elegance, precision handling, and exhilarating performance, the Frauscher 1017 GT is an exceptional choice for owners seeking both style and speed on the water.
