NAME: Twin Soul
YEAR: 2025

PRICE: € 1.500.000 Ex VAT
TYPE: Motor Yacht
CONDITION: New
GUEST CABINS: 2

CONSTRUCTION MATERIAL:
Fiberglass/Carbon fiber
LENGTH: 15,8 m
MAX BEAM: 4,2 m
MAX DRAFT: 0,75 m

MAX SPEED: 57 kn
ENGINE: Gasoline
4 x Mercury 500R
LOCATION: Podenzano,
Italy

The Mylius M47P is a bold statement from one of Italy's most respected performance shipyards. Unveiled at Boot Düsseldorf 2025, the M47P marks Mylius's emphatic return to the powerboat segment with a 15.4-metre high-performance open that delivers extraordinary speed without compromising the artisanal quality and design refinement for which the brand is renowned.

Designed by Alberto Simeone and built using fibreglass infusion with epoxy resin and carbon reinforcements, the M47P is powered by four Mercury Racing 500R outboard engines producing a combined 2,000 horsepower — propelling it to speeds approaching 56 knots. The double-step V-hull ensures outstanding stability and control at high speed while delivering a dry, comfortable ride in varied sea conditions.

INSIDE LAYOUT

On deck: racing-spec helm seats at the console, a generous aft sunbed, a cockpit with cooktop and refrigeration, and swim platforms on both sides. Below: two well-separated private cabins for four guests, with the owner's suite forward featuring a king-size bed and en-suite shower. The command console integrates dual 19" Garmin displays with full system monitoring via Empirebus. Optionally available with a Seakeeper 6 stabiliser, air conditioning, and Starlink repeater.
