SWEET DREAM

RIVA RIVALE 52 | 2009/2023 | 16,20 M

The Riva 52 Rivale is one of the most successful open models ever built by the iconic Italian shipyard, concentrating performance, sleek design and exceptional build quality within her 16.20 meters. Sweet Dream, delivered in 2009 and updated in 2023, perfectly embodies the balance between power, exclusivity and intelligently organized space that defines this celebrated model.

Constructed in fiberglass with a high-performance deep-V hull, she offers structural strength, outstanding stability and impressive comfort even at higher cruising speeds. Her balanced trim and excellent seakeeping qualities make her ideal for sporty yet safe and refined navigation. Powered by twin MAN D2840LE V10 engines rated at 900 horsepower each, she delivers exhilarating performance combined with reliability and smooth handling.

PURE OPEN POWER

Outdoor spaces are generous and elegantly arranged, with expansive sunbathing areas at both bow and stern seamlessly connected to the teak cockpit. The cockpit features a stylish dining area and a fully equipped bar unit, creating a sophisticated and convivial atmosphere. The open layout enhances continuity between the sunpads and the exterior living area, reinforcing her dynamic yet luxurious character.

Below deck, the yacht offers a three-cabin layout with a forward master suite and two guest cabins aft, all with private en-suite bathrooms. The saloon is bright and welcoming, complemented by a fully equipped galley. Fine finishes, premium materials and meticulous detailing throughout confirm the unmistakable Riva style.
