	CREW CABINS: 1		

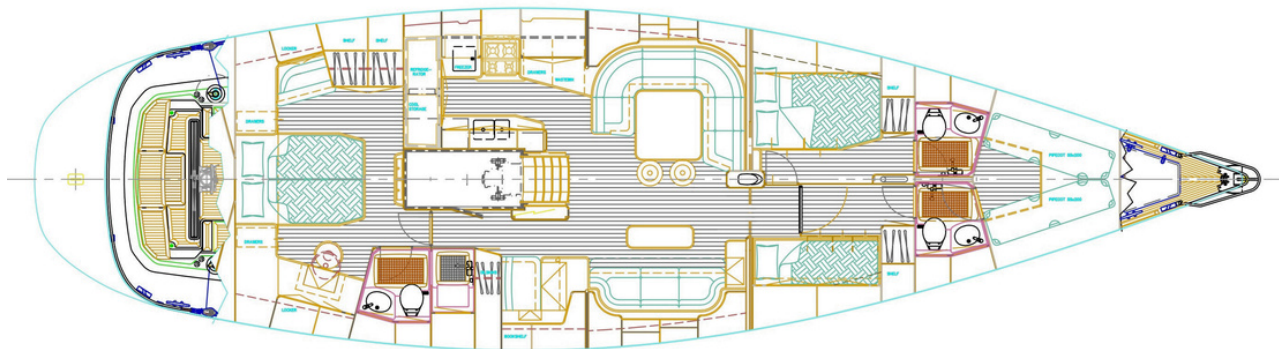

"Fiamma" is a Swan 60 in excellent condition, combining the timeless quality of Nautor Swan with a significant recent refit, making her equally suited for both racing and cruising. In 2023 she underwent major upgrades, including a brand-new teak deck, repainted cockpit, full LED lighting, replacement of all hatches, new refrigeration systems, electric toilets, upgraded batteries, and the installation of full air conditioning and a proportional bow thruster.

Technically, she retains all the hallmark Swan features, with a high-performance hull, carbon mast, and advanced hydraulic systems, while her interior features a spacious saloon, well-equipped galley, an aft owner's cabin with en-suite, two guest cabins forward and an additional crew cabin.

INTERIOR LAYOUT

Winner of the 1998 Swan Cup, she offers strong sailing pedigree together with reliability and comfort for extended cruising.
