 LENGTH: 21,27 m - 69,78 ft
 BEAM: 5,46 m - 17,91 ft
 DRAFT: 3,50 m - 11,48 ft

FUEL TYPE: Diesel
 ENGINE: Perkins 185 Hp
 FLAG: United Kingdom
 LOCATION: Barcelona, Spain

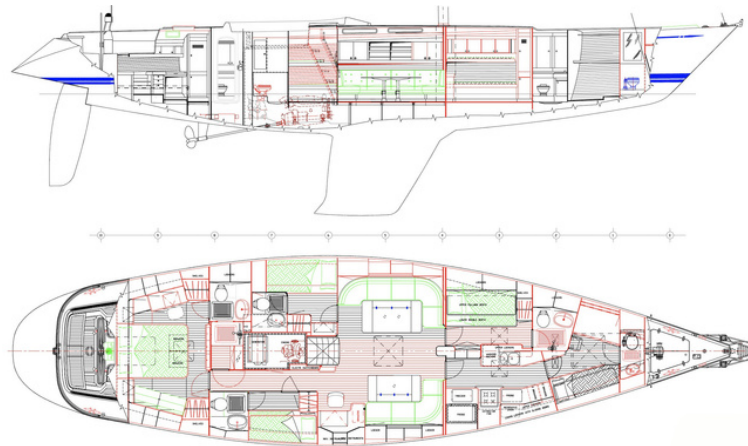

The Swan 68 Explotadot, designed by Germán Frers and delivered in 1993, is a fine example of Nautor's Swan's bluewater heritage: she combines performance, reliability and autonomy, ideal for long-range cruising.

Her interior features a desirable four-cabin layout with a forward galley, ensuring excellent separation between guests and crew. Finished in classic teak, the accommodation includes a spacious saloon, a comfortable owner's stateroom aft, and en suite facilities for all cabins, offering both practicality and onboard comfort.

INTERIOR LAYOUT

The yacht has benefitted from significant refits in 2007, 2014 and 2019, with major upgrades including new teak decks, hull treatment, modern navigation systems, air conditioning, refrigeration, and a watermaker. A full engine refit was completed in 2024, further enhancing her reliability for extended cruising.

On deck, Exploatadot is well equipped with hydraulic winches, quality Harken hardware, and a versatile sail inventory, including carbon sails and a large asymmetric spinnaker. She represents a refined balance of classic Swan elegance and modern capability, ready for serious offshore sailing.
