With 28 units built, the Swan 60 is considered one of the most stylish and successful models ever launched by Nautor Swan. Designed as a fast and easy-to-handle blue-water cruiser, she combines outstanding ocean-going capabilities with excellent racing performance.

DAKINI — hull number 19, commissioned in 2000 — is a rare example equipped with a full carbon mast and Park Avenue boom. This three-cabin owner's version has been meticulously maintained and continuously upgraded to modern luxury standards, making her a truly unique yacht.

On board, comfort and autonomy are exceptional, with air conditioning, diesel heating, washing machine, wine cooler, watermaker, lithium batteries, solar panels, and a new generator ensuring complete independence for long-distance cruising. Advanced B&G, Furuno, Garmin, and A&T electronics, together with twin autopilots and a bow thruster, provide outstanding ease of handling and navigation.

Fully equipped with an extensive sail inventory, DAKINI is ready to deliver both exhilarating performance and comfortable cruising — an exceptional opportunity to own a timeless Swan 60 built for unforgettable adventures at sea.
